Experience

UI/UX Developer

June 2022 - January 2023

United Systems and Software, Inc.

Lake Mary, FL

- Built reusable components using Angular 14+ that aligned with Material Design and organization standards
- Audited application UI to modernize theme with a mobile-first approach while reducing bloat in codebase
- Implemented in-depth testing strategies across a variety of devices to account for UX variances

Product Analyst

August 2020 - June 2022

Web Courseworks

Orlando, FL (Remote)

- Developed hotfixes for client sites with Vanilla JavaScript and JQuery on a weekly basis
- Designed themes for ecommerce websites utilizing Bootstrap and responsive design methodologies
- Identified and tracked feature gaps through Jira to foster product growth along strict timelines
- Hosted cross-team project debriefs to promote best practices and continued improvement
- Partnered with sales and marketing departments to create feature demos and product mockups

Client Services Associate

March 2020 - August 2020

Web Courseworks

Madison, WI

- Performed quality-assurance testing on new features and bug-fix releases
- Drafted use-case and SOP documentation to be utilized by clients for in-house training

Operations Management Trainee

March 2019 - March 2020

Ryder Systems, Inc

Monona, WI

- Facilitated new ordering methodologies to increase profit margins by 39% and reduce waste by 17%
- Coordinated interdepartmental strategies to exceed both regional and corporate goals

Technical Services

July 2017 - January 2019

Epic Systems

Verona, WI

- Shipped new feature updates to be implemented across all Epic-affiliated organizations
- Resolved all customer concerns regarding system build, usage, and user experience

Projects

React Math Game | <https://github.com/jtsanti/react-math-game>

- Built a full-stack React web app to quiz users on how many math questions they can answer in 60 seconds
- Used React to allow users to allow seamless transition from game config to player without reloading

Education

Florida State University

June 2010 - May 2014

Bachelor of Science in Information Technology and Communications

Tallahassee, FL

Madison Area Technical College

August 2020 - September 2021

Front-end Developer Program

Madison, WI

University of Central Florida
